Fiscal Note Version – New

Description

Senate File 319 repeals the sunset provision of the Early Intervention/Class Size Reduction Program.

Background

The Program received a one-year extension in **HF 2465 (FY 2013 Standing Appropriations Act)** to July 1, 2013. Funding for the Program is generated through the school aid formula and will continue to be generated for FY 2014, regardless of the sunset provision set for July 1, 2013.

Assumptions

Currently, no allowable growth rate has been established for FY 2014 and a 0.0% allowable growth rate is assumed for this fiscal note. Additionally, this estimate assumes that current law provisions apply.

Fiscal Impact

There is no impact to the General Fund from this provision. The school aid formula will generate approximately \$30.6 million for the Program, regardless if the Program sunsets. However, the repeal of the sunset provision will provide school districts the authorization to use those funds that are designated for the requirements of the Program.
